CPL
CHEMISTRY AND PHYSICS OF LIPIDS

Volume contents

Volume 90 (1997)

B. Maggio, T. Ariga, R.O. Calderón, R.K. Yu (Argentina, Japan, USA) *Ganglioside GD3 and GD3-lactone mediated regulation of the intermolecular organization in mixed monolayers with dipalmitoylphosphatidylcholine* 1

R. Hutterer, K. Krämer, F.W. Schneider, M. Hof (Germany) *The localization of the local anesthetic tetracaine in phospholipid vesicles: A fluorescence quenching and resonance energy transfer study*. 11

U.F. Heiser, R. Wolf, B. Dobner (Germany) *Simple and high yield synthesis of (±)10,10′-dimethyl-dotriacontan-1,1′-diol as a building block for branched bola compounds. Preparation of (±)10,10′-dimethyl-dotriaconta-1,1′-diyl-bis[2-(trimethylammonio)ethyl phosphate] and the corresponding unbranched equivalent* 25

S. Kato, T. Kubo (Japan) *Relaxation process after the cooling jump across the pretransition of dipalmitoylphosphatidylcholine bilayers* 31

Z. Zhou, B.G. Sayer, R.E. Stark, R.M. Epand (Canada, USA) *High-resolution magic-angle spinning ^1H nuclear magnetic resonance studies of lipid dispersions using spherical glass ampoules* 45

U. Zehavi (Israel) *Synthesis of potentially caged sphingolipids, possible precursors of cellular modulators and second messengers* 55

P. Boullanger, M.-R. Sancho-Camborieux, M.-N. Bouchu, L. Marron-Brignone, R.M. Morelis, P.R. Coulet (France) *Synthesis and interfacial behavior of three homologous glycero neoglycolipids with various chain lengths* 63

V. Ravily, L. Clary, C. Santaella, P. Vierling, G. Duportail (France) *Molecular order and mobility within membranes made from fluorocarbon/fluorocarbon and fluorocarbon/hydrocarbon double-chain ether and amide phospholipids* 75

W.R. Burack, A.R.G. Dibble, R.L. Biltonen (USA) *The relationship between compositional phase separation and vesicle morphology: Implications for the regulation of phospholipase A_2 by membrane structure* 87

T. Yamanaka, N. Ogihara, T. Ohhori, H. Hayashi, T. Muramatsu (Japan) *Surface chemical properties of homologs and analogs of lysophosphatidylcholine and lysophosphatidylethanolamine in water* 97

A. Checchetti, G. Chidichimo, A. Golemme, D. Grasso, D. Imbardelli, C. La Rosa, F.P. Nicoletta, P.W. Westerman (Italy, U.S.A) *On the stability of the ripple phase in the DPPC/PLPC/water ternary system* 109

L. Negelmann, S. Pisch, U. Bornscheuer, R.D. Schmid (Germany) *Properties of unusual phospholipids. III: Synthesis, monolayer investigations and DSC studies of hydroxy octadeca(e)noic acids and diacylglycerophosphocholines derived therefrom*. 117

M. Weisser, M. Vieth, M. Stolte, P. Riederer, R. Pfeuffer, F. Leblhuber, G. Spiteller (Germany, Austria) *Dramatic increase of α-hydroxyaldehydes derived from plasmalogens in the aged human brain* 135

PII S0009-3084(97)00098-4

Short communication

H. Brachwitz, J. Bergmann, Y. Thomas, W.E. Berdel, P. Langen, T. Wollny (Germany) *Synthesis and cytostatical evaluation of cytidine- and adenosine-5'-hexadecylphosphate and their phosphonate analogs* 143
